Page 47, line 22, please add the paragraph:

FIG. 22AA is a sectional view of an alternate embodiment of the one piece base track 2222 with a raised channel-seat for the stud 2220.

IN THE CLAIMS:

Please amend claims 1, 2 and 3 as follows:

	1	Suct1.	(Ame	ended) A demountable and reusable wall assembly
	2	for partition	ing a	room space between an overhead and a floor comprising:
	3		(a)	a plurality of panels having edges at the extremities,
	4		(b)	a plurality of studs for supporting the panels,
	5		(c)	a plurality of long-term/removeable fasteners,
	6		(d)	a tape, and
	7		(e)	a tab associated with the tape,
3	8			the panels are affixed to the studs at the panel edges to
	9			form a seam, the long-term, removable fasteners secure
	10			the adjacent panels to the studs,
	11			the seam and long-term removable fasteners are covered
	12			with the tape and covered with a mud compound, the
	13			tape is sufficiently strong to be removed, when the wall
	14			assembly is demounted [as a single piece, in unison, and
	15		,	the tape may be removed as a single piece by pulling the
	16			tab, as the tab is pulled,]the tape and the mud compound
	17			is disengaged [disengage] from the panels thereby
	18			exposing the long-term removable fasteners such that the
	19			long-term removable fasteners are [can be] easily

18

	,
	removed and the panels and studs disassembled, the
	heads of the long-term removable fasteners are kept
•	clean for easy engagement and removal and the tape is
	sufficiently unporous to prevent the mud compound
	from penetrating through the tape to fill the heads of the
	long-term fasteners.
2 (A	anded). A demonstrable and manachle avail against to m
2. (Ame	ended) A demountable and reusable wall assembly for
partitioning a room	n space between an overhead and a floor comprising:
(a)	a plurality of panels having edges at the extremities,
(b)	a plurality of study for supporting the panels,
(c)	a plurality of long-term removeable fasteners,
(d)	a tape,
(e)	a tab associated with the tape, and
(f)	a releasable adhesive,
	the panels are affixed to the stude at the panel edges to
	form a seam, the long-term, removable fasteners secure
	the adjacent panels to the studs,
	the seam and long-term removable fasteners are covered
	with the tape and covered with a mud compound, the
	tape is sufficiently strong to be removed, when the wall
	assembly is demounted, [as a single piece, in unison, and
	the tape may be removed as a single piece by pulling the
	tab, as the tab is pulled,] the tape and the mud compound
	partitioning a room (a) (b) (c) (d) (e)

is disengaged [disengage] from the panels thereby

19		exposing the long-term removable fasteners such that the
20		long-term removable fasteners are [can be] easily
21		removed and the panels and stude disassembled, the
22		heads of the long-term removable fasteners are kept
23		clean for easy engagement and removal and the tape is
24		sufficiently unporous to prevent the mud compound
t 25		from penetrating through the tape to fill the heads of the
/3 26		long-term fasteners, the panels are also affixed to the
27		studs not at the panel edges using the releasable adhesive.
1	3. (Ame	ended) A demountable and reusable wall assembly for
2	partitioning a room	n space between an overhead and a floor comprising:
3	(a)	a plurality of panels/having edges at the extremities,
4	(b)	a plurality of studs/for supporting the panels,
5	(c)	a plurality of long-term removeable fasteners,
6	(d)	a tape,
7	(e)	a tab associated with the tape, and
8	(f)	a releasable adhesive,
9		the panels are affixed to the studs at the panel edges to
10		form a seam, the long-term, removable fasteners secure
11		the adjacent panels to the studs,
12		the seam and the long-term removable fasteners are
13		covered with the tape and covered with a mud
14		compound, the tape is sufficiently strong to be removed,
15		when the wall assembly is demounted [as a single piece,
		,
